

Call for Session Proposals

We expect to have sessions on the following topics:

- Smart Farming and the Internet of Things
- Business Collaboration in the 'Cloud'
- Robotic and Automation Solutions
- Future Internet Service Infrastructures
- Smart Agri-Food logistics
- Value Chain Digitization
- Supply Chain Event Management
- Smart Food Awareness and Transparency
- Standardisation and Interoperability
- Information and Data Exchange in Agri-food
- Semantic Web and Ontologies in Agri-food
- Animal Registration and Identification
- Apps for Agri-Food Business
- Global Strategy for ICT in Agri-food

These sessions will be initiated by the three organizing projects, but there is room for external contributions. Follow our website for the development of sessions. Proposals for sessions and contributions can be sent to info@smartagrimatics.eu.

Smart AgriMatics 2014

INTERNATIONAL
CONFERENCE

The future of ICT and robotics in
agriculture and food business

18th - 19th June 2014
Paris

Welcome to Smart AgriMatics 2014

We are pleased to invite you to take part in the Smart AgriMatics 2014 Conference on Future Internet ICT and robotics in agriculture and food business, which will be held in Paris, France on 18th and 19th June 2014.

Smart AgriMatics 2014 is initiated by the EU-funded projects eFoodChain, Fspace and ICT-AGRI and its mission is to establish co-creation between users, developers and researchers on the conference theme.

By bringing together experts from agribusiness, governmental organisations, research institutes, software and hardware companies and farms, the Smart AgriMatics 2014 Conference will be the perfect venue for these participants to exchange knowledge, experiences and even real software components that ultimately can contribute to overcome the challenges of Future Internet for the agri-food sector.

We believe that Smart AgriMatics 2014 is of great interest to you and that you will leave the conference with new opportunities for business and research and a renewed agenda for the challenges of Future Internet for the Agri-Food sector.

We look forward to meeting you in Paris at Smart AgriMatics 2014.

Who should attend

Following from the conference's objective of co-creation we expect that the following target groups are equally represented:

- Software and hardware industry
- Farming business
- Consultancy
- Food and retail business
- Governmental organisations
- Research institutes

Because we want to have deep interaction between the participants the number is limited to 250 persons. So be in time to register!

Follow us on

@SmartAgriMatics

Conference Format

Workshops in small interactive groups form the heart of the conference, in which presentations alternate with hands-on exercises or hackathon kind of sessions. Besides, there will be ample room for spontaneous and informal meetings and creative ideas in breakout sessions.

The conference will start with a plenary opening session to introduce the various sessions. Several renowned keynote speakers will introduce the challenges of Future Internet ICT in agrifood business. A plenary closing session will conclude the conference and set the agenda for the future.

Registration

With special rates for participation including presentation opportunities, Smart AgriMatics 2014 ensures maximum effectiveness to grow your business or to expand your network.

You can find out more information about registration at the conference website www.SmartAgriMatics.eu

Additional information

The Conference Office will provide a letter of invitation to the conference by request from any of the delegates. These letters will not imply funding support by the organisers.

Important dates:

Opening registration: 1st January 2014

Early bird registration: 31st March 2014

Closing registration: 11th June 2014

Preliminary program: February 2014

Conference: 18th and 19th June 2014

There will be a conference dinner at the evening of the first day. This dinner has a limited access and is not included in the registration fee.

Venue

The Conference will be held at the hotel Novotel Charenton, in Paris. This hotel is conveniently located 10 mins away from Gare de Lyon train station, in the vibrant Bastille district & Bercy.

Easily accessible by metro, the Venue gives direct access to Paris's main attractions: Place de la Concorde, Eiffel Tower, Opéra, the Louvre Museum and several major exhibition halls.

Across the Conference Hall, is Bois de Vincennes, the largest public park in Paris, created between 1855-1866 by the Emperor Louis Napoleon. This Park is home of many magnificent buildings and relaxing gardens, where you can stroll around and enjoy the beautiful Parisien night fall.

Please visit our website for more information and special rates for accommodation for participants of the conference.

Travel

The venue can be reached by public transport. It is walking-distance from the metro station "Liberte".

Airports Charles de Gaulle and Orly can be reached within 30 minutes by public transport and Gare de Lyon train stations is within 10 minutes travel time.

For further information about the public transportation system in Paris region and to better plan your connections, please go to RATP website: ratp.fr/en

To reach the venue by car, take exit "Porte de Charentone" from the ring road.
