Atos

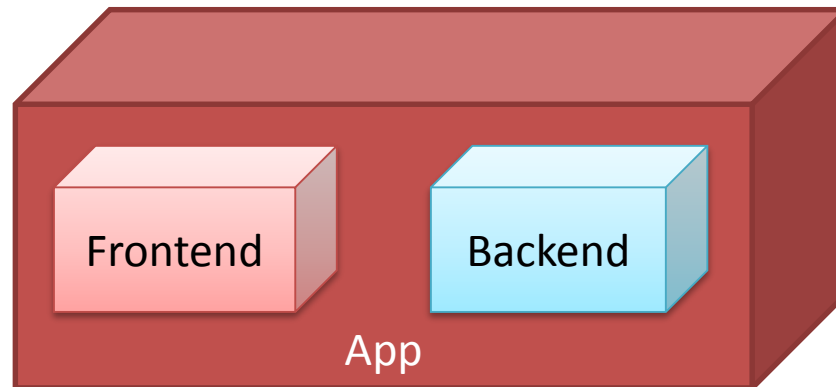

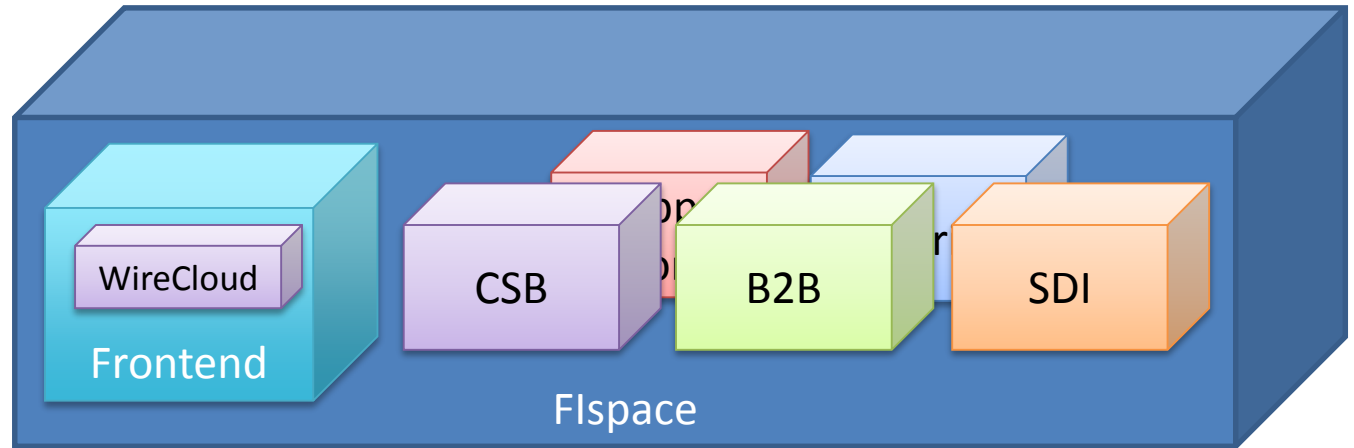

I want to develop my Finspace app. But...

- How do I connect to the Finspace platform?
- Which languages/technologies can I use to develop my app?
- How do I create a widget?

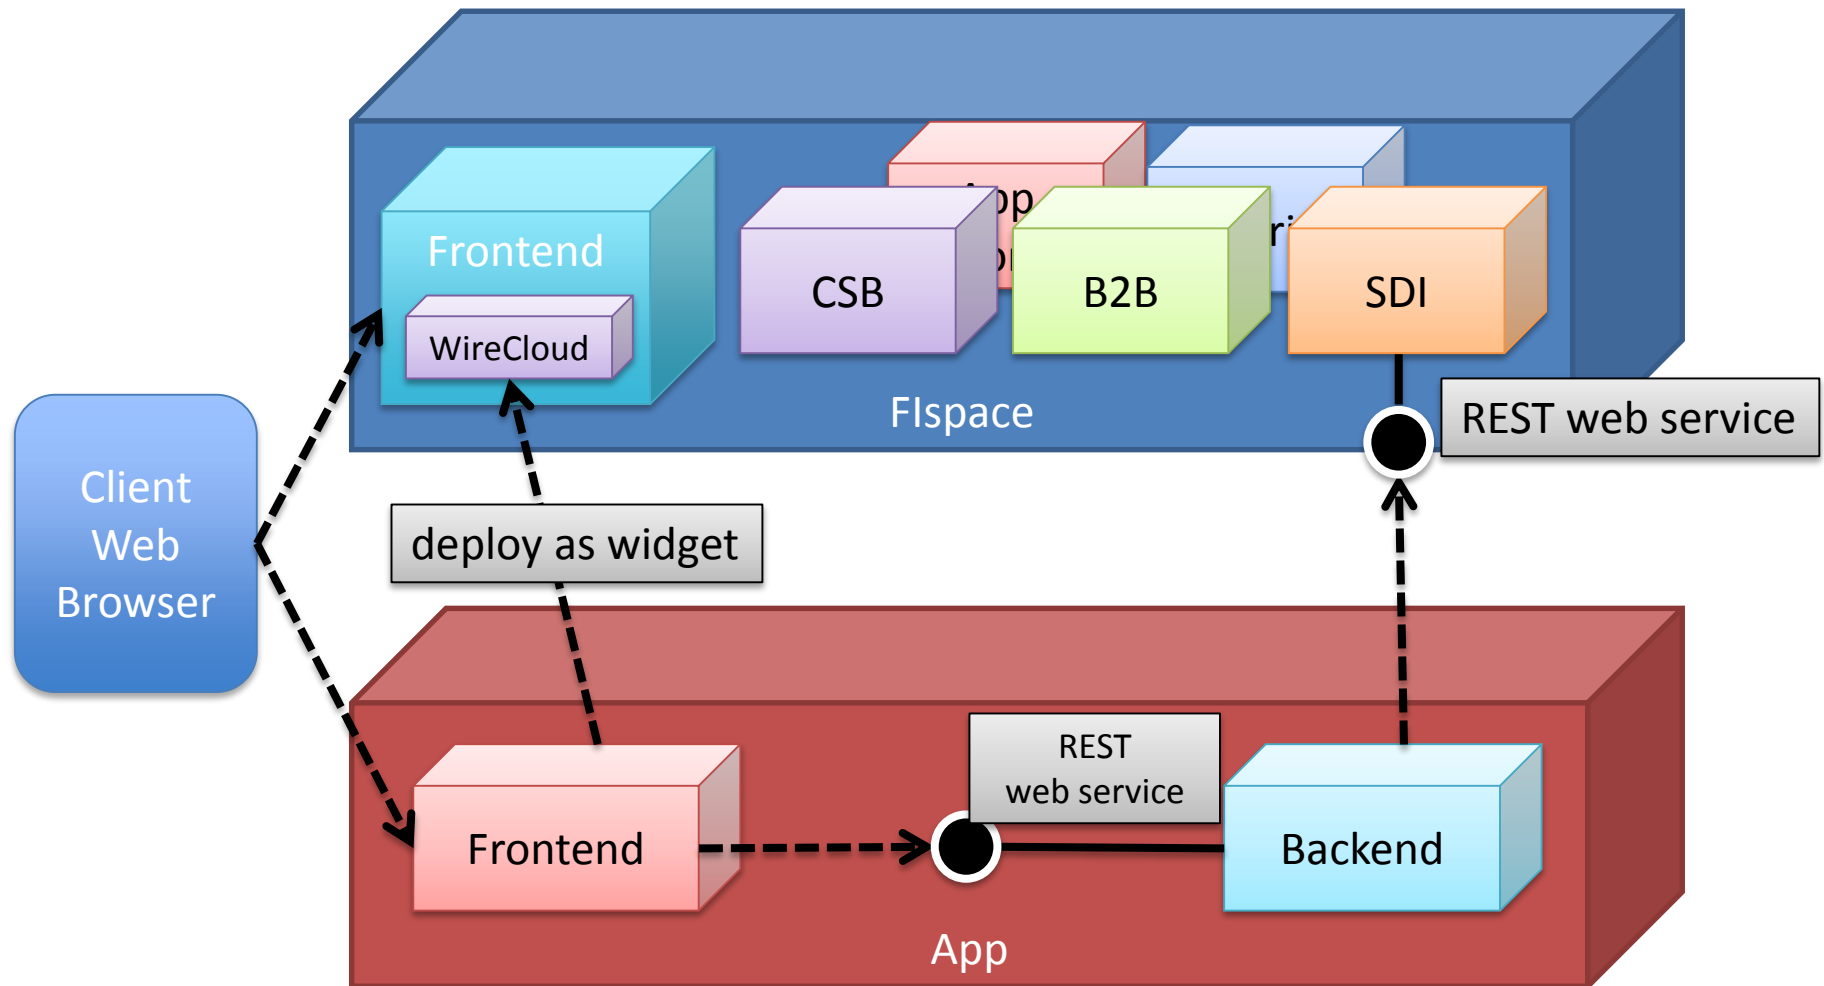

# How do I connect my components?

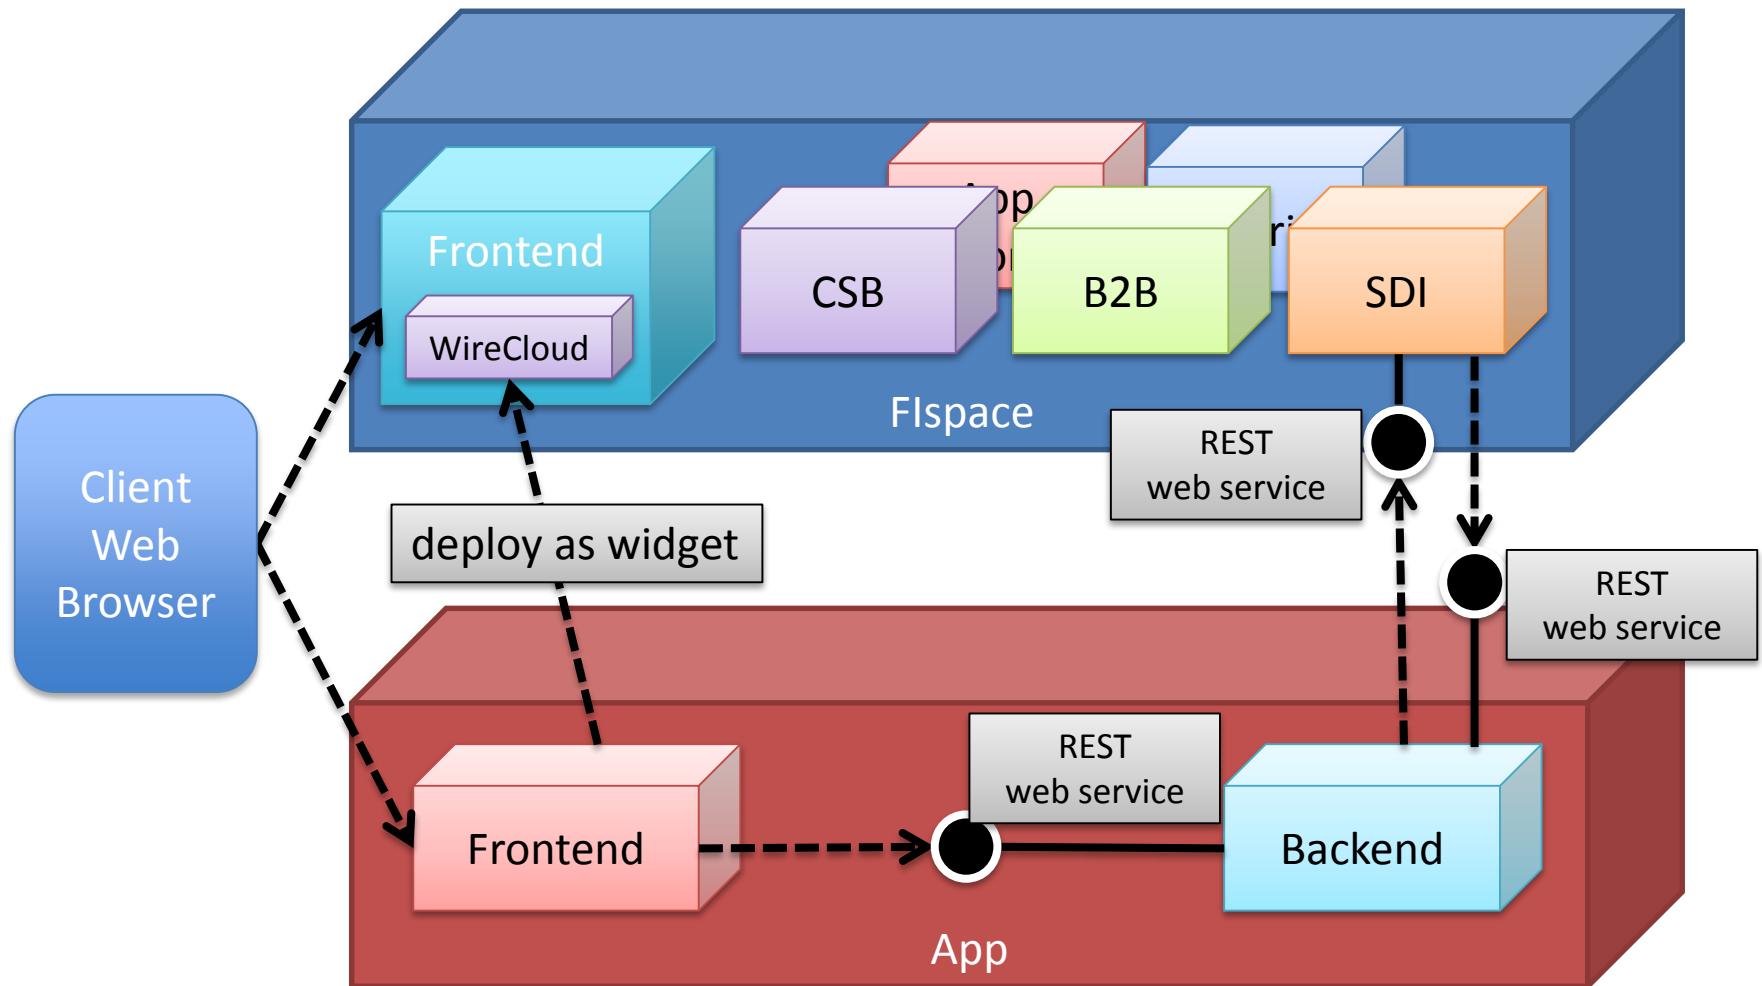

## Basic components connection

## Components connection extended

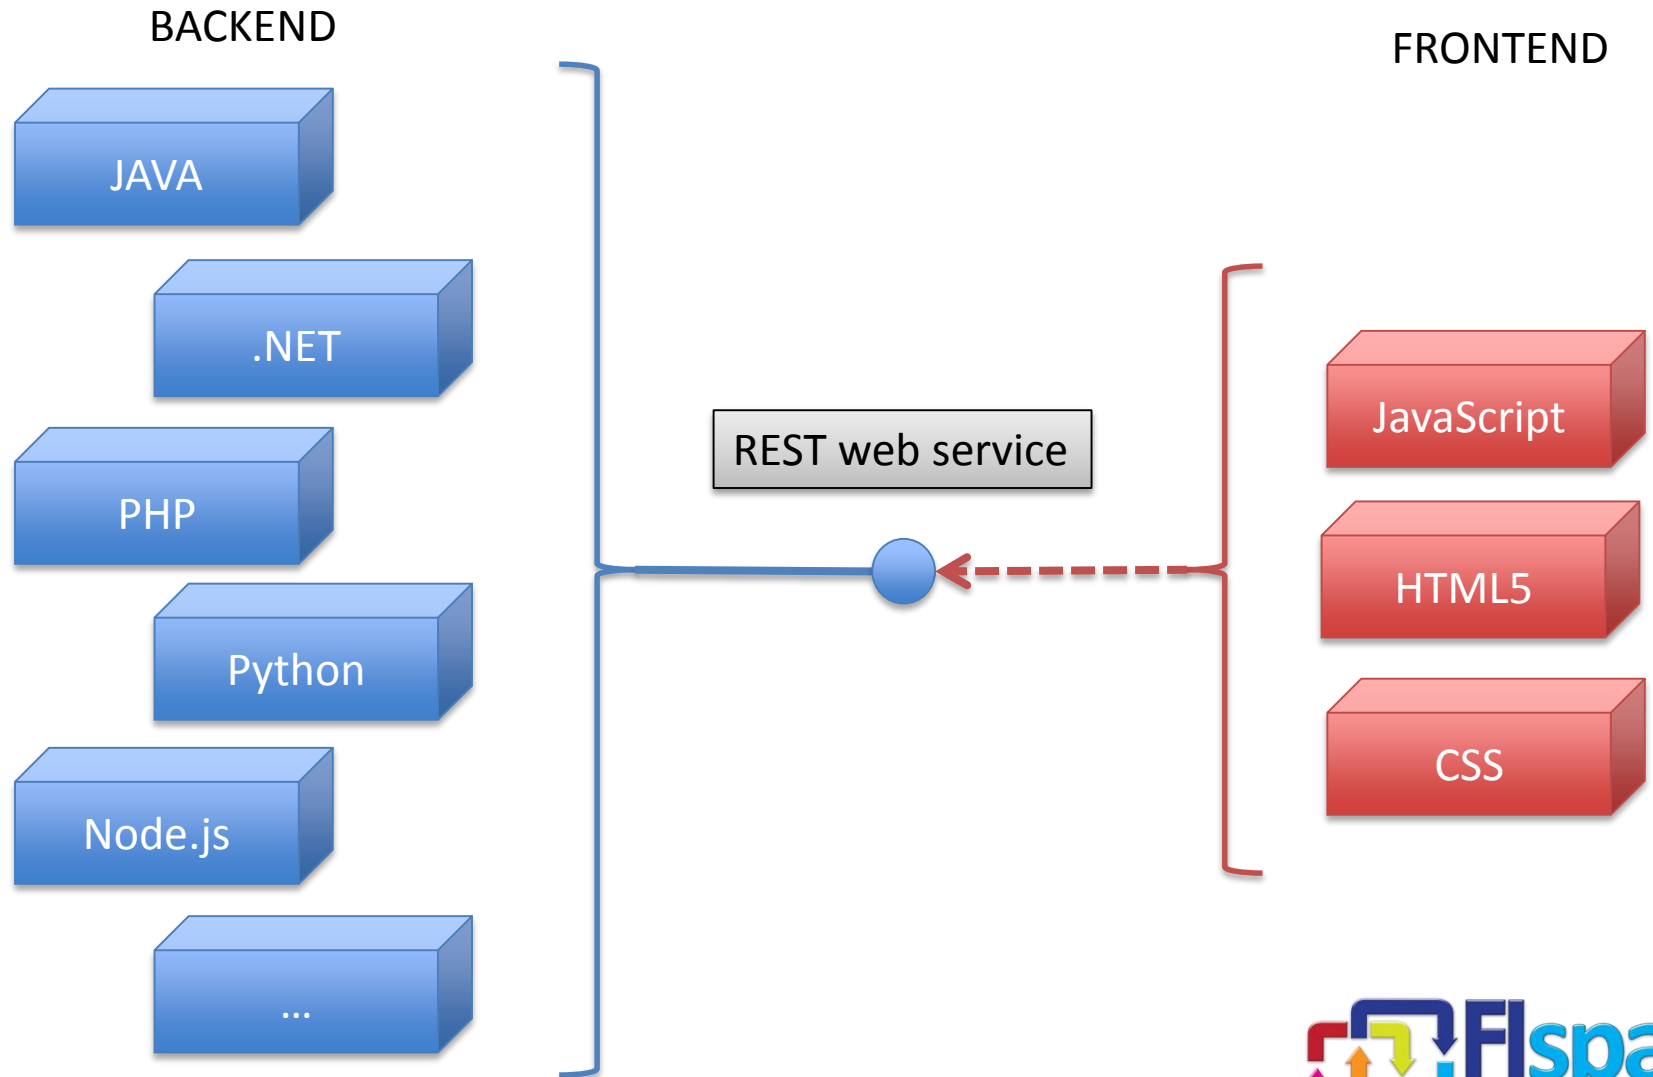

What technologies can I use in my app?

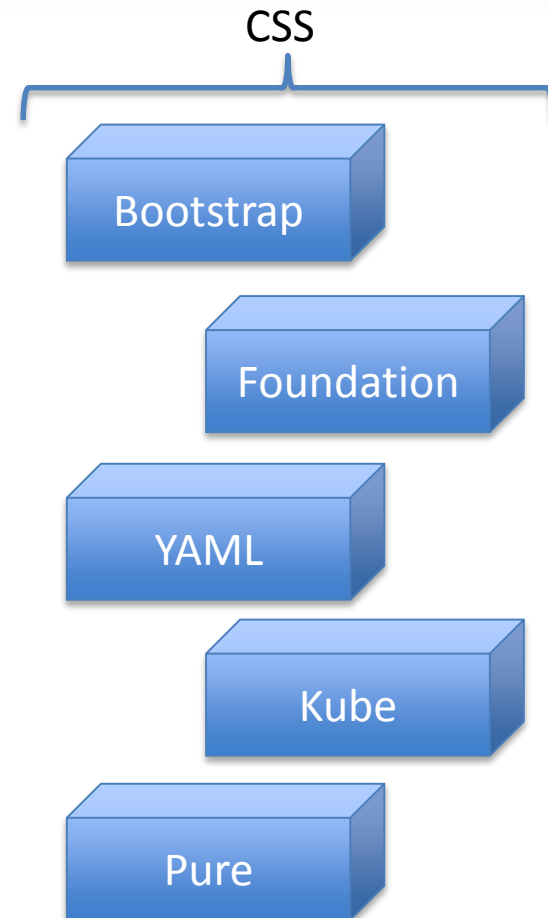

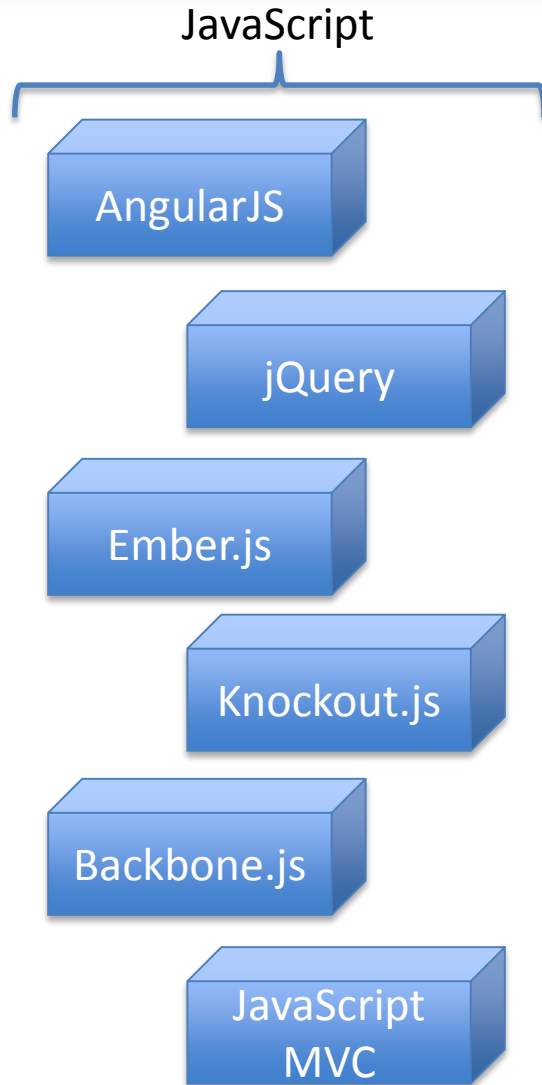

# Development technologies in Flspace

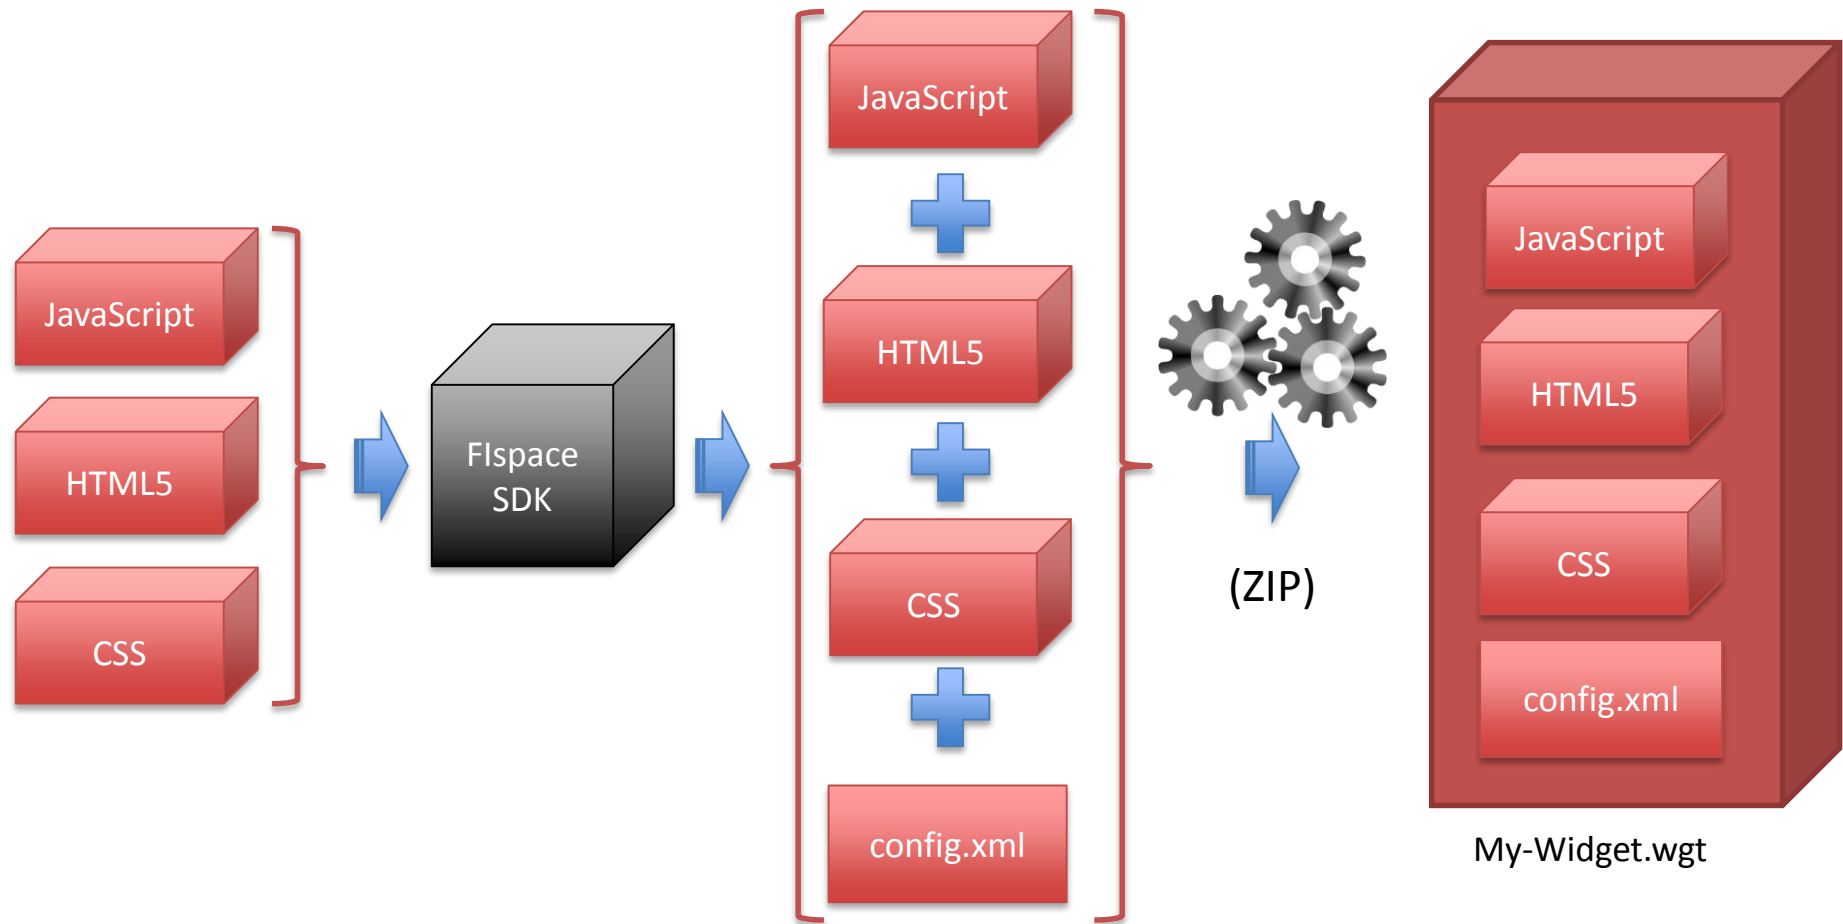

# Sample frameworks to use in Frontend

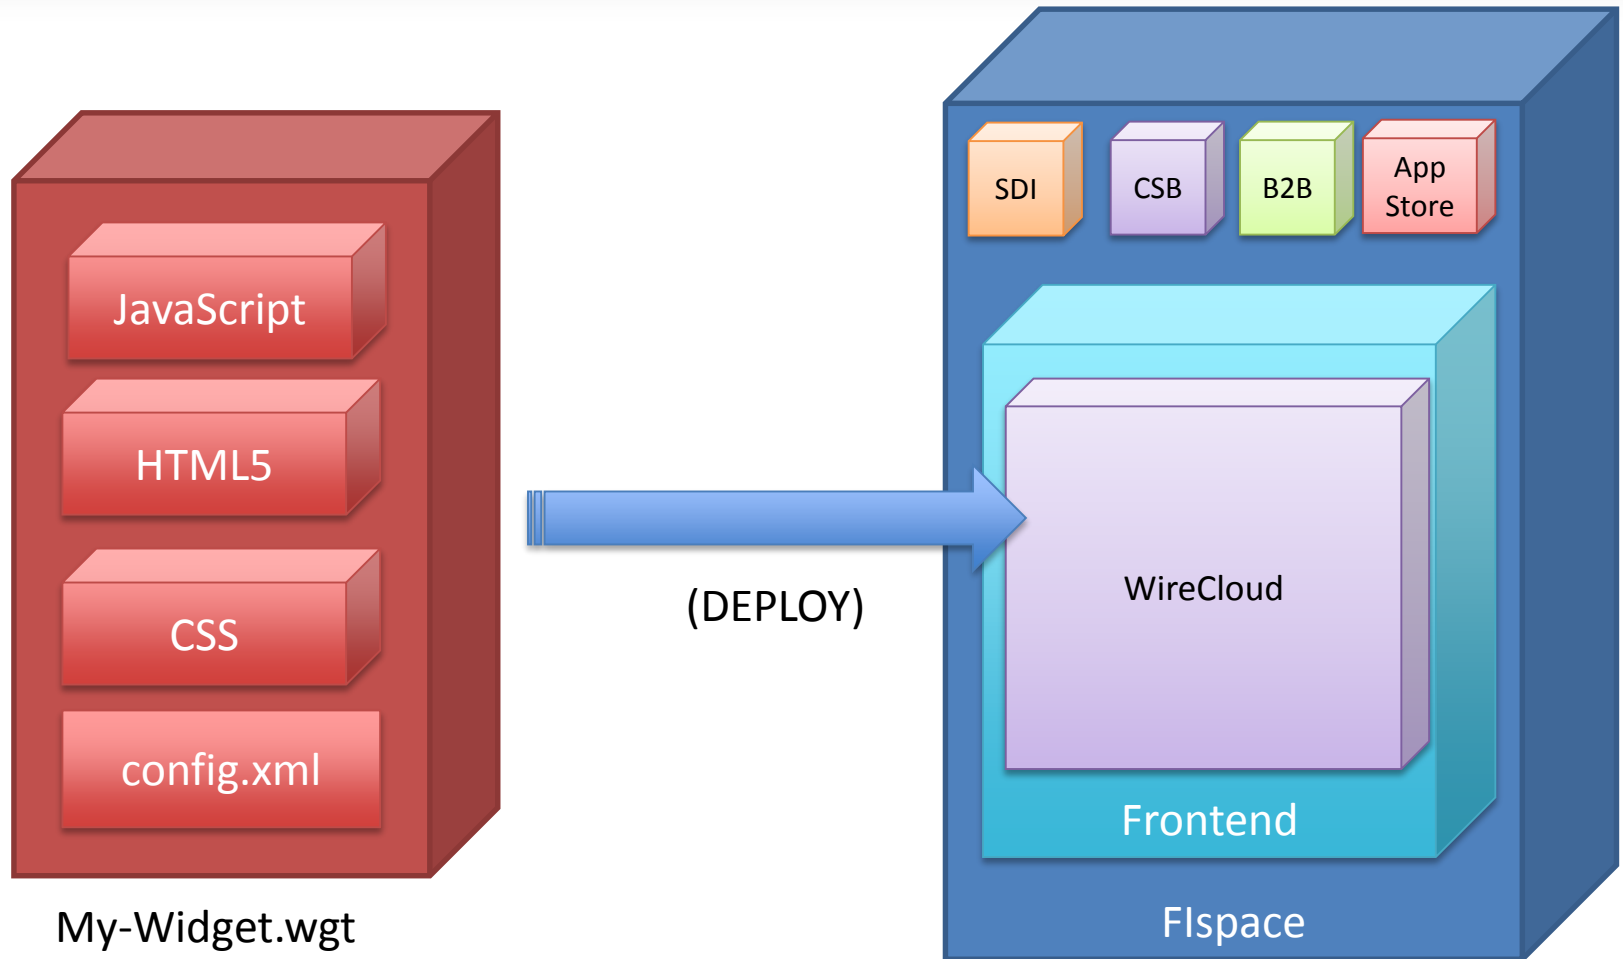

# How do I create a WireCloud Widget?

## What next?

- ✓ How do I connect to the Flspace platform?
- ✓ Which languages/technologies can I use to develop my app?
- ✓ How do I create a widget?
